

Ergo21.com Affiliate Program

Frequently Asked Questions

Is it free to become an affiliate?

Yes! There are no fees of any kind associated with our Affiliate Program. You can apply and participate for FREE. In addition, you will never find any hidden charges or a sales quota associated with our program. All you have to do is link to us, and you can start earning referral fees right away.

How much will I earn as an affiliate?

Our referral fees are 8% of the purchase price minus the shipping and other fees for each order directed to our site through yours. Please see the Affiliate Program Operating Agreement for details.

When will I get paid?

On a quarterly basis, we will send you a report and a check for your share of the products that were shipped during that quarter, less any taxes that are required to be withheld. If you are paid for a product in that quarter that is later returned, we will deduct the corresponding fee from your next quarterly payment. If there is no subsequent payment, we reserve the right to send you a bill for the fee at the end of the following quarter.

Can I check how much I've earned throughout the quarter?

Yes. The special affiliates page of our website allows you to view your traffic, sales and commission stats.

How do the orders I send to you get tracked?

You'll be assigned a unique ID number when you become an affiliate that will be embedded in all of the links we provide. Without this number in the URL of your link, we won't know who referred the customer — and you won't receive credit for those purchases.
